MEMORANDUM FOR: Acting Director of Security

FROM:

Policy and Plans Group

SUBJECT: Nineteenth Meeting of the Compartmentation
Committee, 14 July 1981

1. This memorandum is for your information. Attached are the formal minutes of the 18th meeting of the DCI Committee on Compartmentation (COCOMP). Also attached are two memoranda handed out at the 19th meeting held on 14 July 1981. One of the memorandum reflects action taken by the Deputy Director of Central Intelligence.

2. Please note on the memorandum dated 2 July 1981 dealing with Decentralized Release Authority for Decompartmented Satellite Imagery and Derived Information, the DDCI for the DCI has approved providing authority to the SECDEF to allow the Director DIA to release decompartmented satellite imagery-derived information to foreign governments and international organizations and record the disclosures while the DCI retains authority over the use of imagery. The Requirements and Evaluation Staff, NFAC, is preparing a paper to clarify the procedural details of this new delegation of authority. It will be submitted to the DCI for approval before issuance.

3. The second memorandum, addressed to the Chairman, COCOMP, dated 10 July, is the final report of the Industrial Working Group on Inspections and Requirements. It concludes that the implementation of a combined or joint inspection program in industry can best be accomplished in facilities of mutual concern. Both the SSC and the Industrial Security Branch

have been copied on this memorandum. While not one of the "Good Thing" issues coming out of APEX, COCOMP members had an interest in this issue in an attempt to reduce industry's complaint of being over-inspected by Government. SSC will be asked to create an address book in 4C for co-located facilities, showing sponsor, memorandum of Agreement signatories, date of last inspection and who conducted it. While the address book will be only as good as the input data, nevertheless, it is felt that this data collection will be better than nothing.

4. Members were reminded that pre-payment for the COCOMP "wake" must be accomplished by the close of business 24 July. The cost is \$6.00. Checks may be made out to "EDR Fund". Payment should be made to Carol of the COCOMP staff. The time is: Tuesday, 28 July, between 1730 and 1930 hours in the Executive Dining Room, Headquarters.
